

Amendment to Change Bylaws Section 15 (Convention Evaluations and Survey)

Proponents: NLG National Office Staff

Emails: Traci Yoder (traci@nlg.org) and Lisa Drapkin (membership@nlg.org)

WHEREAS the convention evaluation process has been generally handled by National Office staff following the annual convention, we propose to formally make this a part of N.O. convention work.

Original Text: *“The Vice President is responsible for preparing evaluations for each panel and workshop, even if CLE credit is not offered. The Vice President is responsible for convening an evaluation working group. The Vice President will lead the process for conducting surveys at each convention. The Vice President is responsible for writing a report about the results to the NEC and to the members.”*

We propose that the following language be adopted: “The National Office will send out a convention survey and report back to NEC.”

Implementation: This is in the purview of staff convention work and has been carried out by staff for many years. This amendment is meant to bring our governing documents in line with our actual procedures. No further implementation is needed. The NEC has consented to this amendment.
